PLEASE READ THIS FIRST

Thank you for downloading a free preview of our EU GDPR & ISO 27001 Integrated Documentation Toolkit!

For an easier start, please read these few instructions:

1) The **documents in the Toolkit are sorted in a sequence** that should follow your implementation – in folder 00 you will find the Procedure for Document and Record Control; in the next folder is EU GDPR Readiness Assessment and the Project Plan for Complying with the EU GDPR and ISO 27001.
2) In the root folder of the Toolkit you'll find the file named **"List of documents"**, which describes some very important things: which documents from the toolkit are related to which EU GDPR article and ISO 27001 clause, and which documents are mandatory according to EU GDPR and ISO 27001.
3) Click here to see the official text of the EU GDPR arranged by chapters, sections, and articles.
4) If you **receive an error opening certain files**, this is probably because the file name is too long – please copy the file to your Desktop and it should open normally there.
5) Soon, you will **start receiving tips and tricks** on how to fill in the templates via e-mail – if you don't start receiving these emails, please check your Spam folder.
6) Please read the **Terms of Use for Documentation** located in this folder.
7) Click here to see Pricing & Options.
